What if I missed the deadline for a tax extension?

Gabbi - 2024-10-22 - Tax Extensions

If you have missed the deadline for an extension and still haven't completed your taxes, do them ASAP! This will help minimize IRS penalties and interest owed. Remember, if you owed taxes, the money was due to the IRS by April 15th. Even if you can only send in a partial payment, that will help reduce the amount of penalties and interest you owe.
